Vancouver Green Drinks Invitation

What is Green Drinks?

This casual monthly gathering is for anyone interested in sustainability issues. The drinks aren't green but the people are! Meetings are held across Canada and around the world. In Vancouver, the meetings are usually the 3rd Wed of each month. Exceptions are July & December.

There's no agenda or other formality. It's just a chance to meet regularly to chat, debate, socialize and connect with others in Vancouver who are passionate about environmental issues and all things 'green'.

Steamworks is next to Waterfront Station on the edge of Gastown. We're usually in the back room but changing space availability means we sometimes get shifted around – if you can't find us just ask the pub staff.
